

World-class Sports Streaming at Scale

Field Proven by Major Sports Right Owners

Deliver and monetize live sports content with pristine video quality just like the world's largest streaming companies. The VOS[®]360 platform handles hundreds of live events every weekend and includes our award winning PURE Compression Engine[™] and EyeQ, an AI-based live transcoding technology.

COMPANIES RELY ON VOS360 CLOUD PLATFORM FOR STREAMING THEIR TOP SPORTS CONTENT

**+2,500
EVENTS
PER MONTH**

**ZERO TO
1M SUBS
IN SECONDS**

**+10 MILLION
AD INSERTIONS
PER DAY**

Best Sports Experience

Deliver pristine video quality up to UHD with exceptional quality of experience for live sporting events. You can ensure minimal rebuffering, fast time to play, low latency streaming, multi-camera views and synchronization between video and sports data.

Multi-level Resiliency

VOS360 architecture utilizes geo redundant cloud regions (or clouds), source redundancy and multi-cdn. Combined with dedicated devops it's the an unbreakable platform.

Targeted Advertising at Scale

Insert pre-roll or mid-roll ads for millions of concurrent viewers to maximize monetization of your sports event.

Sophisticated Blackout Management

Manage your content rights by regionalizing your content and enforcing blackout, content replacement using SCTE-224 scheduling rules.
