cOS

BOOST Speeds. **SLASH** OPEX. **KEEP** Subscribers.

Beacon Intelligent Speed Maximizer automatically maximizes network efficiency and subscriber quality of experience (QoE) by dynamically tuning upstream and downstream performance in real time.

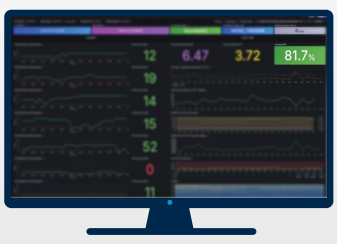
KEEP the subscriber!

30-50%
Reduction in Churn

Lower churn related to speed and QoE to drive loyalty.

SEAMLESS Integration

Unlock maximum channel capacity for more bandwidth, lower latency, and better overall service quality.



STOP the trucks! Reduce OPEX!

Mid-tier operators could see a 30-40% reduction in truck rolls.

SAVE
$100-$250
Average cost per truck roll.

SAVE the trouble!

20-40%
Average bandwith increase

Reduce support calls by 30-45%.

INCREASE SAVINGS

Protect your revenue and reduce OPEX to drive your business success.

SIMPLIFY OPERATIONS

Empower your team to generate savings and optimize efforts day-to-day.

SUBSCRIBER TRUST

Ensure more stable, reliable service and better performance across devices.

FASTER BROADBAND. HIGHER QOE. BOOST SPEEDS. SLASH OPEX.

START SAVING NOW
