The MediaPort 7000 module has a female GPIO connector that can be connected to an external device and used to control players.

For information on configuring GPIO using SystemManager, refer to “MediaPort Configuration” in the Harmonic SystemManager User Guide.
To install a MediaPort module:

1. If you are installing two modules, you may need to first remove a filler panel from the chassis. From the rear of the MediaPort, unscrew the two lock screws that secure the filler panel, and then remove the filler panel.

2. Grasp the module handle and push firmly into the slot. Ensure the module is fully inserted by pressing on the connectors with the palm of your hand.

3. Tighten the two lock screws on the rear of the module to secure it to the chassis.

4. If installing two modules, repeat steps 1-3 for the second module.

Caution: Do not use the two lock screws on the rear panel of the module to pull it into position. Tighten the screws only after the module is fully inserted.

For complete replacement instructions, refer to the Spectrum Component Replacement Guide.
To remove a power supply:
1. Disconnect the AC power cable.
2. Press the release lever to the right and pull the handle to remove the power supply.

To install a new power supply:
1. Grasp the module handle and push firmly into the slot.
2. Connect the AC power cable.

For complete replacement instructions, refer to the Spectrum Component Replacement Guide.

To remove the bezel:
1. Remove the center screws on each side of the chassis that secure the bezel to the chassis.
2. Unplug the bezel power/data connector.
3. Pull the bezel away from the chassis.

**Note:** Keep the rack ear in place.

To install the new bezel:
1. Attach the bezel power/data connector.
2. Align the bezel in front of the chassis so that the logo appears in the top-left corner, and the metal corners of the bezel are level with the rack ears of the chassis.
3. Press the bezel straight onto the chassis.
4. Attach the two center screws on each side of the chassis to secure the bezel to the chassis.

For complete replacement instructions, refer to the Spectrum Component Replacement Guide.
