3 LCD Monitor Controls
4 Keyboard
5 Keyboard/Monitor Tray

Front and Rear Panel LEDs

Front Panel Indicators
- Hard Drive Activity Indicator: lights when hard drive is in use.
- Power on Indicator/Button: lights when system power is on.
- System Status Indicator: see below.

System Status Indicator (front and rear panels)

- Light Blue [Solid] Normal system operation
- Amber [Solid] System needs attention. Note the diagnostic indicator lights will display an error code.

Diagnostic Indicator Lights: refer to the Omneon SystemManager Installation Guide for details.

NIC Indicators (rear panel)

NIC Indicator Codes
- [Link indicator is green] The NIC is connected to a valid network link at 1000 Mbps.
- [Link indicator is amber] The NIC is connected to a valid network link at 10/100 Mbps.
- [Activity indicator is amber blinking] Network data is being sent or received.
- [Link and Activity indicators are off] The NIC is not connected to the network.
