Memorandum

Date: May 7, 2015
To: Harmonic NMX Customers and Channel Partners
From: Allan Nicholson, Senior Director, Video Product Management
Subject: Availability of the NMX 7.3.1 GA Software Release

We are pleased to announce the general availability of the NMX 7.3.1 software release for NMX Digital Service Manager systems. This release is a patch release on NMX 7.3.0 with a focus on resolving customer reported issues.

NMX 7.3.1 also introduces some enhancements that greatly improve the performance of NMX and the various systems and products it controls. These include:

Electra X2 and XVM

- MPTS Output support
- OTT Descriptor editing via NMX
- DTolP

ProStream

- ACE –EBP support per Cablelabs specification
- Virtual PMT support
- RTP-SSRC edit
- PID detection threshold control

For a complete list of new features in NMX 7.3, please see the release notes, user guides and application notes.
